Communal satellite dishes have been fitted to the majority of the Associations housing stock. If you do not think you have a satellite feed to your property, please contact the Association to check whether this has been installed at your property. **Please note** that the Association is unlikely to give consent if there is already a communal satellite system serving your property.

If there is no communal satellite system serving your property, and you wish to install a dish, you need to obtain consent from the Glasgow City Council Planning Department (0141 287 8555). You may need to check with the City Council Heritage and Design Department (0141 287 8635) as if your building is Listed, Listed Building Consent may also be required. You will be responsible for any cost and paperwork involved in obtaining these consents. Once relevant permission(s) has been granted by the City Council a copy of the consent(s) should be brought to the Association as we will not give consent without first seeing the Council's written consent.

The conditions on which consent would be granted are as follows:

1. There is no existing communal satellite system in the property.
2. The installation is to be carried by competent tradesmen.
3. You will be responsible for any damage caused to the attic, attic hatch, roof, roof light, chimney etc during the installation – and removal – of the satellite dish.
4. You will be responsible for any maintenance of the dish and its wiring and for any fault arising from these items.

5. You will remove the dish and its wiring on termination of your tenancy at your own expense.

Declaration:

I have read and understood the section on Alterations and Improvements in Section 5.20 of my Tenancy Agreement.

I have obtained the City Council's Consent(s) to the works and provided the Association with copies of the Consent(s).

I agree to all of the above conditions and will abide by them.
